Profile

I have called Richmond my home for well over 40 years. Growing up in Richmond was almost magical, having grandparents, aunts, uncles and many cousins surrounding me in my childhood.

As a junior at Sky View High School, I attended Girls State through an invitation from the local American Legion. This helped mold and shape my mind in the way of politics. Providing insight into what our local and state government does for each one of us.

I have worked as a Cosmetologist for over 26 years and have operated a salon from our home for over 22 years. This could be why I chose to get involved in City government. Spending my day listening to community members opened my mind to the opportunity to help make a

difference.

My love for the community has been shown in the many years of serving on the PTA and Planning and Zoning prior to being elected to serve on City Council.

My greatest joy and happiness comes from family. Being a mother of two amazing adult children and having a husband of over 23 years, Tavis.

Interests include sewing, baking, card making and many hours of fishing and camping.
