

Communication System

The city has a communication system where emails, text messages and voicemails can be sent to residents of the city.

Items such as emergency notifications, agendas, and events such as Black & White Days and the City Party are sent out to those in the system.

Typically emails are sent with a rare text message or voicemail.

If you are not included in this communication, or want to add additional phone numbers or email addresses, please email [communityresponse \[at\] richmondutah.org](mailto:communityresponse@richmondutah.org) with your name, physical address (so we can tie the information to your utility account) and what phones numbers and emails you want included.

You can unsubscribe from this service at anytime by clicking the "click here" button at the bottom of any email.
